OBJECTIVE

Motivated computer science student with a passion for solving real-world problems through coding and technology. Looking to grow as a developer by contributing to impactful projects while learning from experienced professionals in the software industry.

EDUCATION

SASTRA Deemed University, Thanjavur — May 2027
B.Tech in Computer Science and Engineering — **CGPA: 8.12**

Kalaimagal Higher Secondary School, Thanjavur — Grade 12: **94.6%**

SKILLS

Programming	Python, C / C++, Java, SQL, MongoDB
Web Development	HTML, CSS, JavaScript, React
Core Concepts	OOPS, Data Structures, Algorithms, Databases
Certifications	Full Stack Development (Udemy), AR/VR (SASTRA University)
Soft Skills	Problem Solving, Adaptability, Teamwork, Decision Making

INTERNSHIP

Web Developer Intern – JIME Developers — Jul 2025 – Aug 2025
Focused on frontend development using **HTML, CSS, JS, and libraries** to build responsive, user-friendly interfaces.
Enhanced UI/UX by refining layouts and ensuring cross-device compatibility.
Briefly explored backend to understand data flow and integration.

PROJECTS

Canteen Hub – Review & Menu App *(HTML, CSS, JS, PHP, Laravel)*
Built a food review platform for SASTRA students to browse menus, rate dishes, and discover campus canteen food.

Placement & Internship Portal *(Next.js, React, TypeScript, Tailwind CSS, PWA)*
A centralized campus recruitment platform for job discovery, live process tracking, and eligibility updates.
Built responsive dashboards, automated resume skill matching, and integrated PWA support for mobile access.

Criminal Face Detection and Identification System (*Python,Machine learning*)
Developed a real-time criminal face recognition system using RetinaFace and FaceNet for surveillance video analysis.
Implemented face tracking and real-time identification of criminals from video streams

Intrusion Detection System (IDS) with Firewall Integration *(Python, Suricata)*
Built a lightweight IDS that detects malicious traffic using Suricata and automatically blocks suspicious IPs through a Python-based firewall controller. Added domain and network filtering (*only @sastra.ac.in allowed*) with auto-unblock for improved security automation.

ACHIEVEMENTS

Smart India Hackathon (SIH) 2025 – Internal Round Finalist:
Fraud Detection System for Academic Credentials (Typescript, React, Blockchain, SHA)

EXTRA-CURRICULAR ACTIVITIES

Actively participated in hackathons, coding contests, and campus tech fests.
Playing cricket, chess, and exploring new technologies.
